Full Stack Developer

I am a passionate developer who specializes in creating high-quality applications. My focus on efficiency and scalability enables me to build sustainable and quality solutions for complex business problems. I am always seeking new challenges to continue growing and expanding my technical skills, and I enjoy working collaboratively with teams to achieve the best possible results.

Education

Universidad Tecnologica Nacional - FRT: Systems Engineering (2018- 2020)

Henry Bootcamp: Full Stack Developer (2020)
